EXAMINER'S COMMENTS

Response to Arguments

1. Applicant's arguments filed 1/27/2005 have been fully considered and are persuasive.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

- a. In claim 29 lines 3-4, the phrase "130 □ C and 180 □ C." has been replaced with the phrase - - 130° C and 180° C. - -.
- b. In claim 32 line 2, the phrase "130 □ C and 180 □" has been replaced with the phrase - - 130° C and 180° C - -.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious an aseptic container with a port for filling sterile containers and a plug having a grippable formation also being cup-shaped with an end wall and a cylindrical skirt depending from the end wall, which is outermost when the plug is inserted or a second annular recess around the periphery; and a method for filling the container in which the grippable formation on the plug is gripped, the plug removed, the container filled, and the plug re-seated.

The most pertinent prior art, ADAMS, discloses a plug with a grippable formation, but does not disclose the further plug shape or adaptations claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
